The Ambition: Zero Office Visits

Current State

Future State Flow

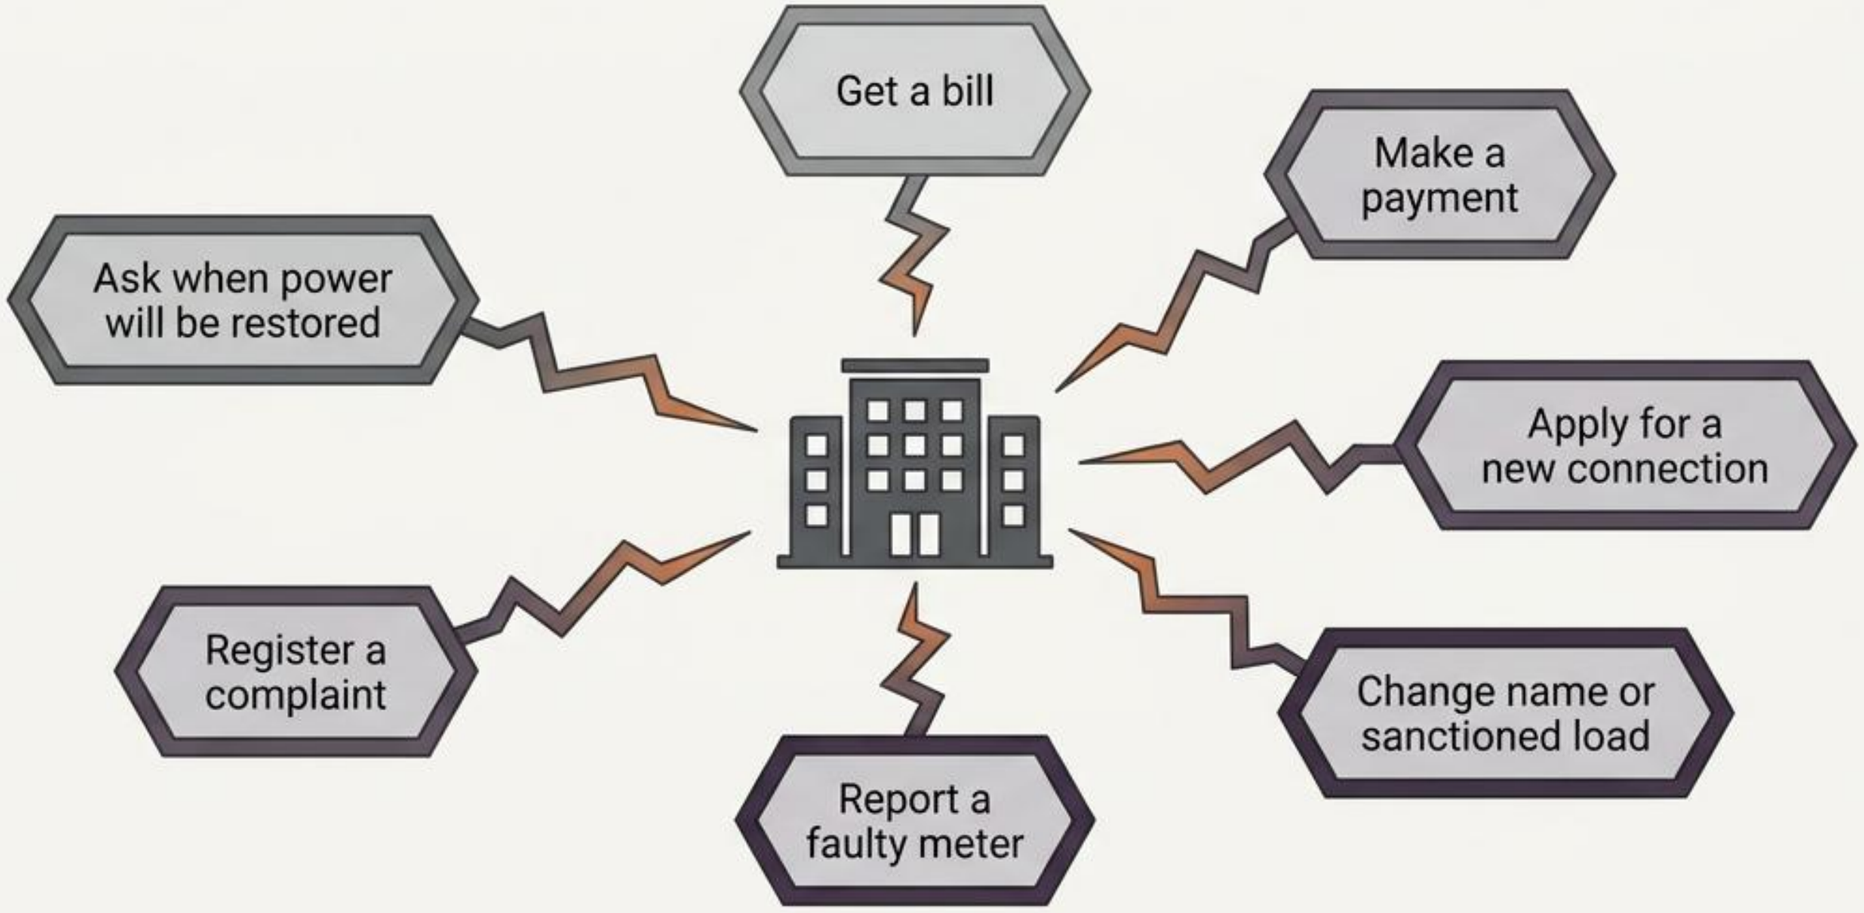

For Consumers:
Routine electricity work—bills, payments, services, complaints—done in one seamless conversation.

For Employees:
Field tasks and alerts delivered on a channel they already use.

Pelocal

The Heavy Cost of the Status Quo

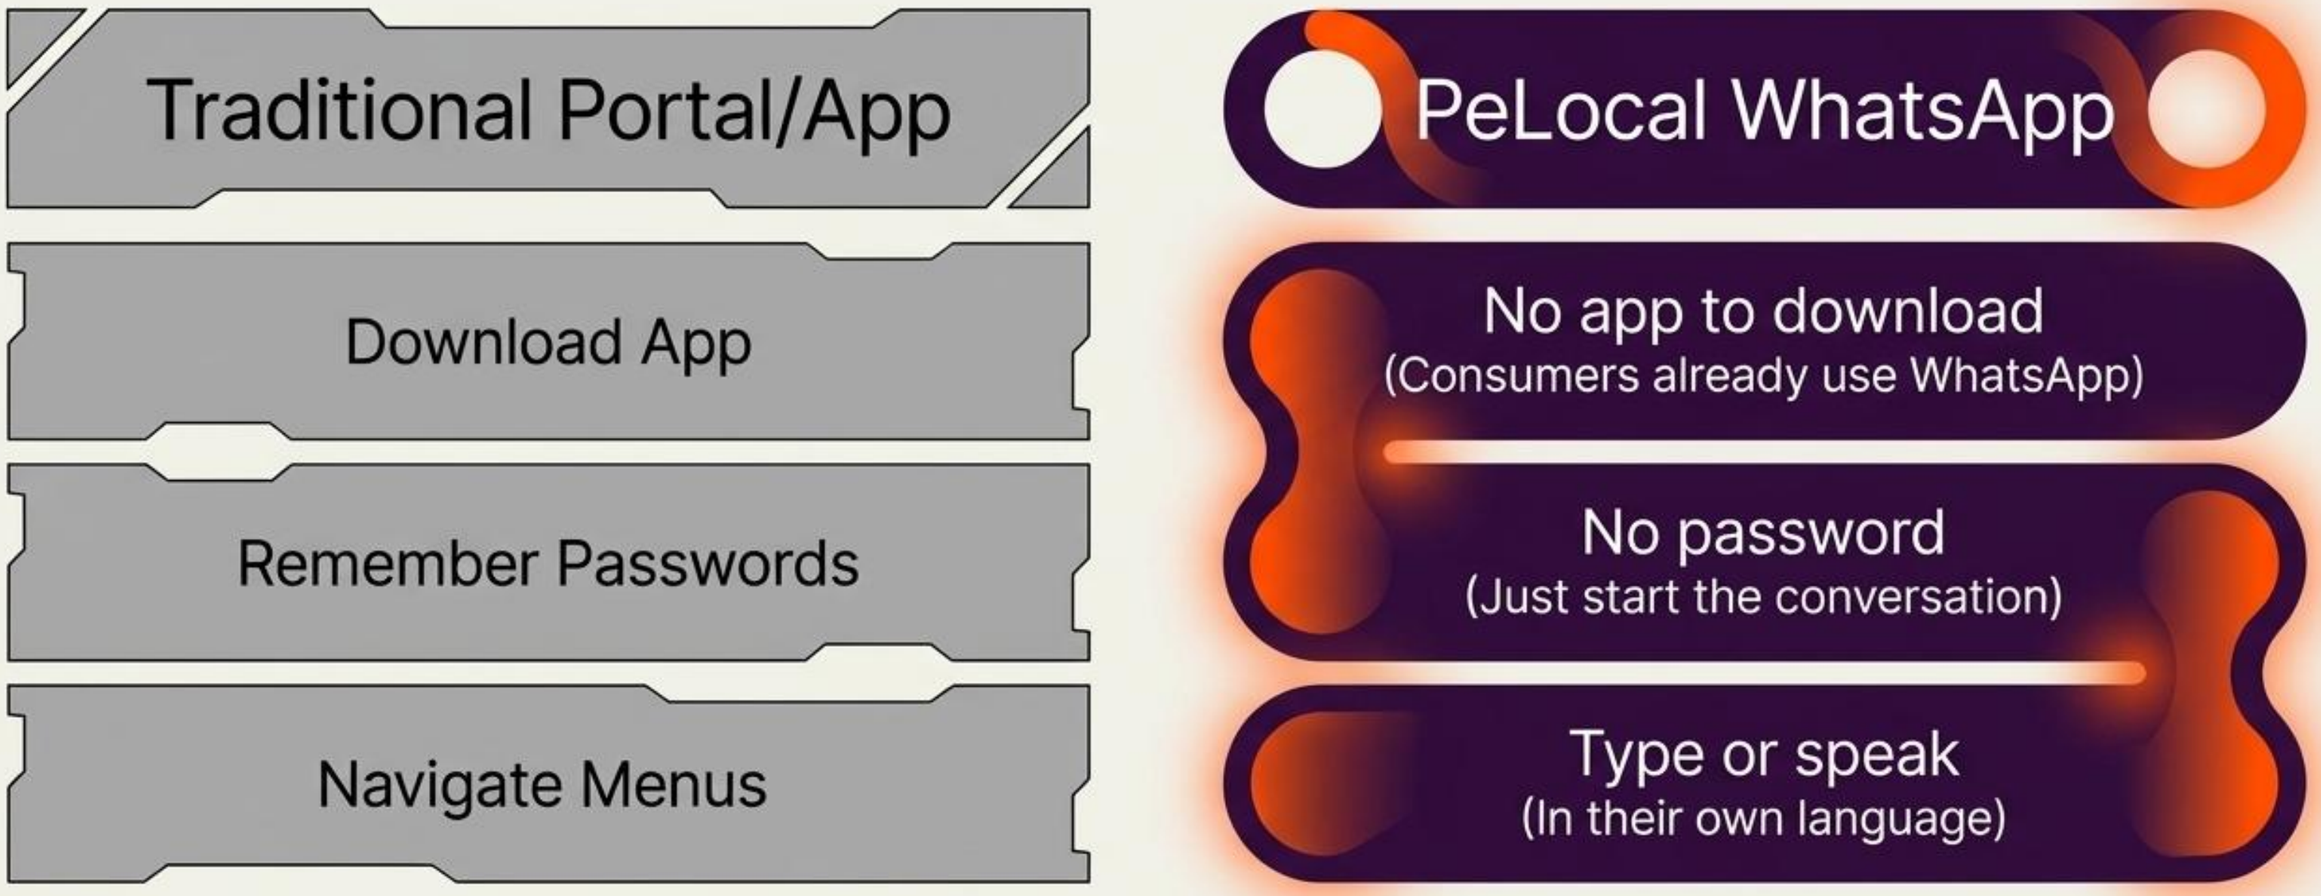

Friction Map infographic DISCOM offices.
Every physical visit costs the consumer time—and costs DISCOM teams time too.

Pelocal

The Access Paradigm Shift

Routine journeys become simple conversations on WhatsApp. No barriers, just instant access.

Frictionless access creates ubiquitous adoption.

Pelocal

More Than a Chatbot: The Intelligence Stack

Citizen Access Layer:
WhatsApp — No App Needed

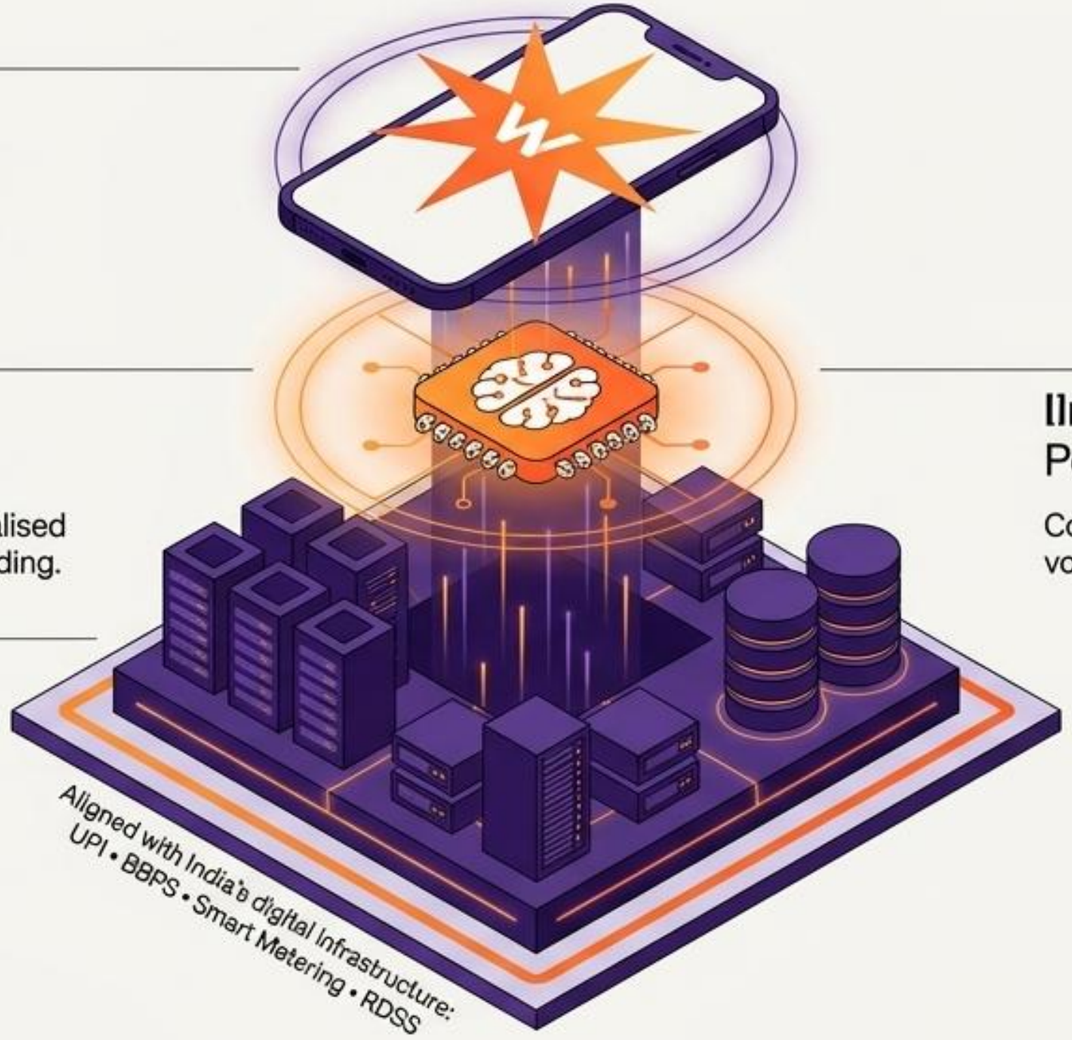

Conversational AI, embedded payments, voice notes, proactive engagement.

AI Intelligence Layer:
PeLocal AI Engine

Payment prediction, risk scoring, personalised message triggers, multilingual understanding.

Data Layer: Smart Meters + DISCOM Systems

Consumption data, billing records, outage events, and CRM interactions.

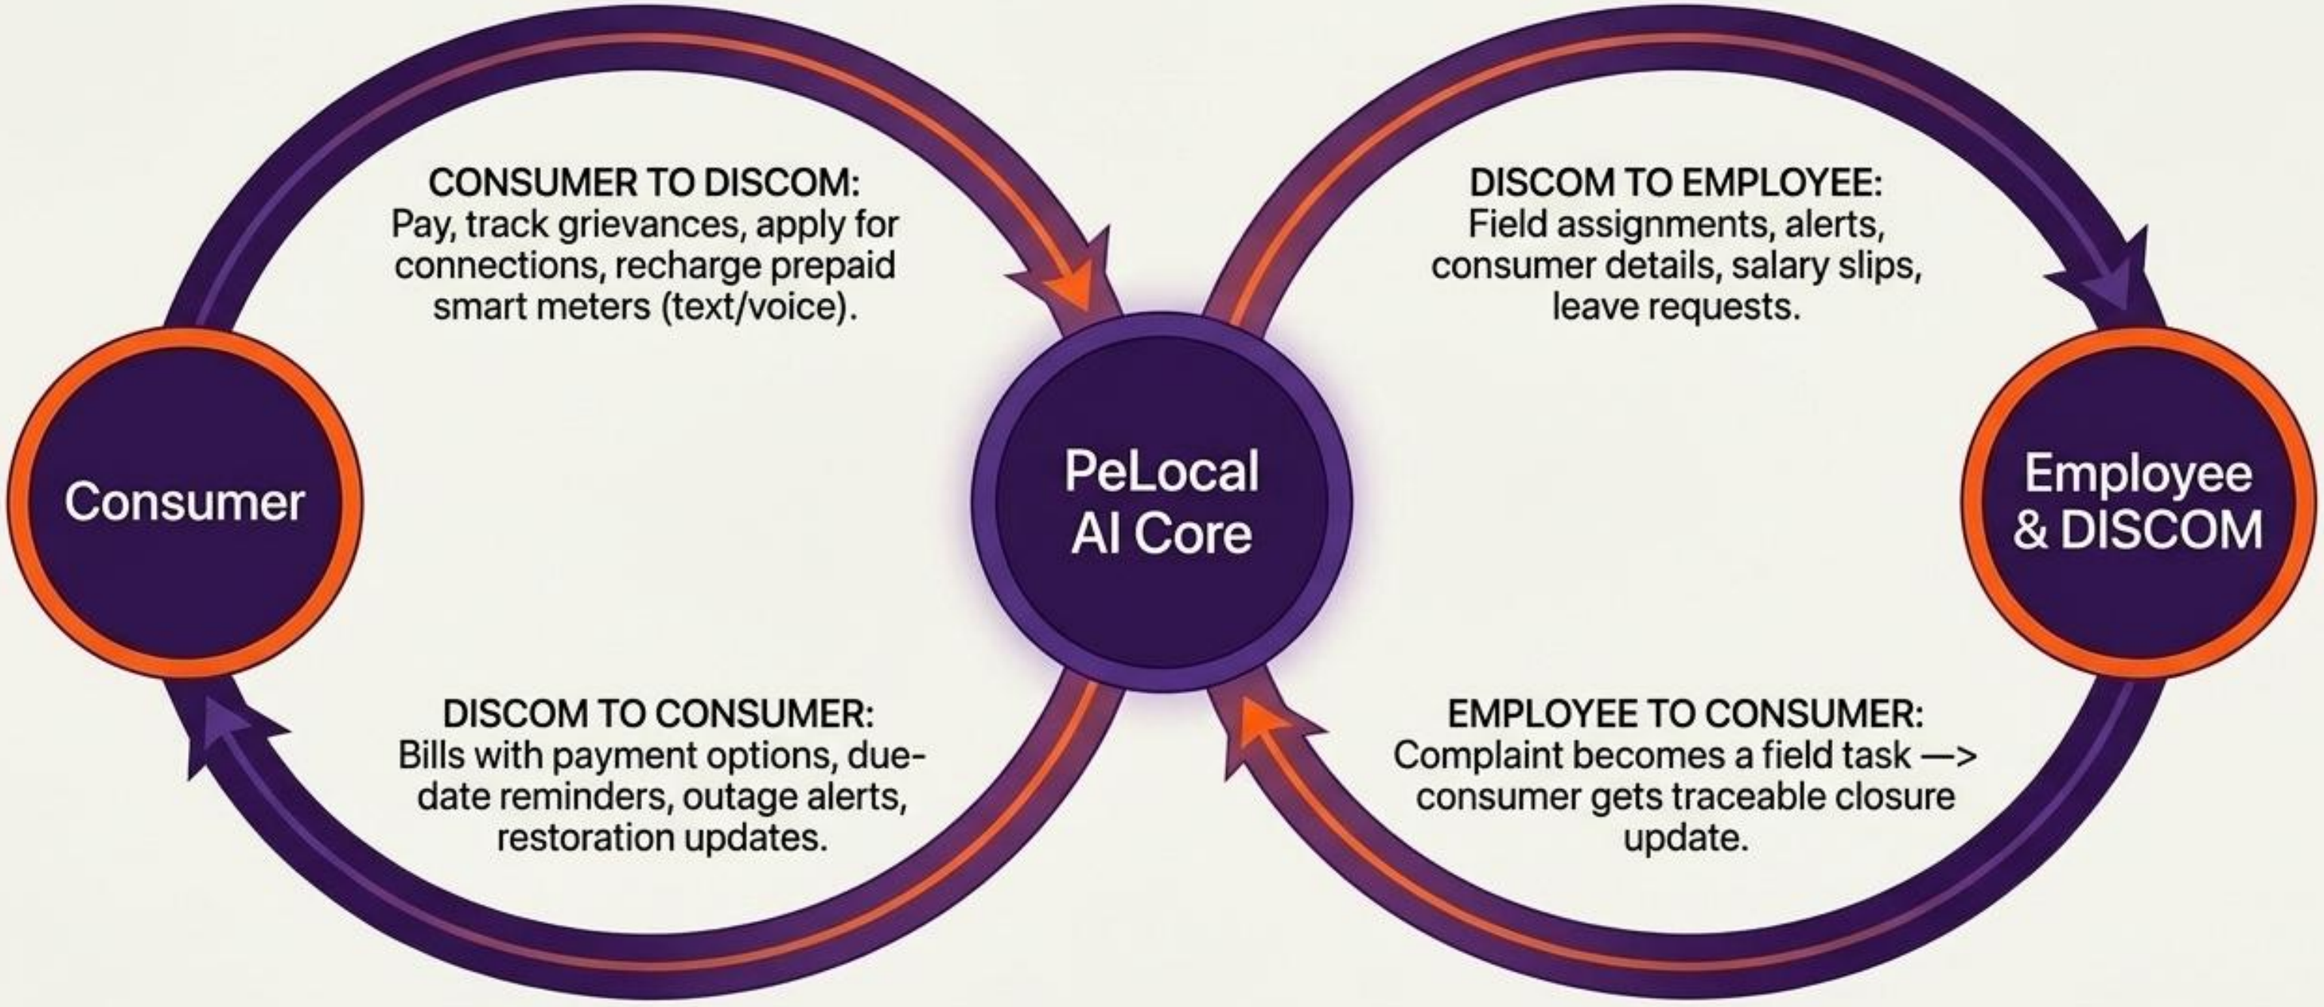

IIntelligence Layer:
PeLocal AI Engine

Conversational AI, embedded payments, voice notes, proactive engagement.

Pelocal

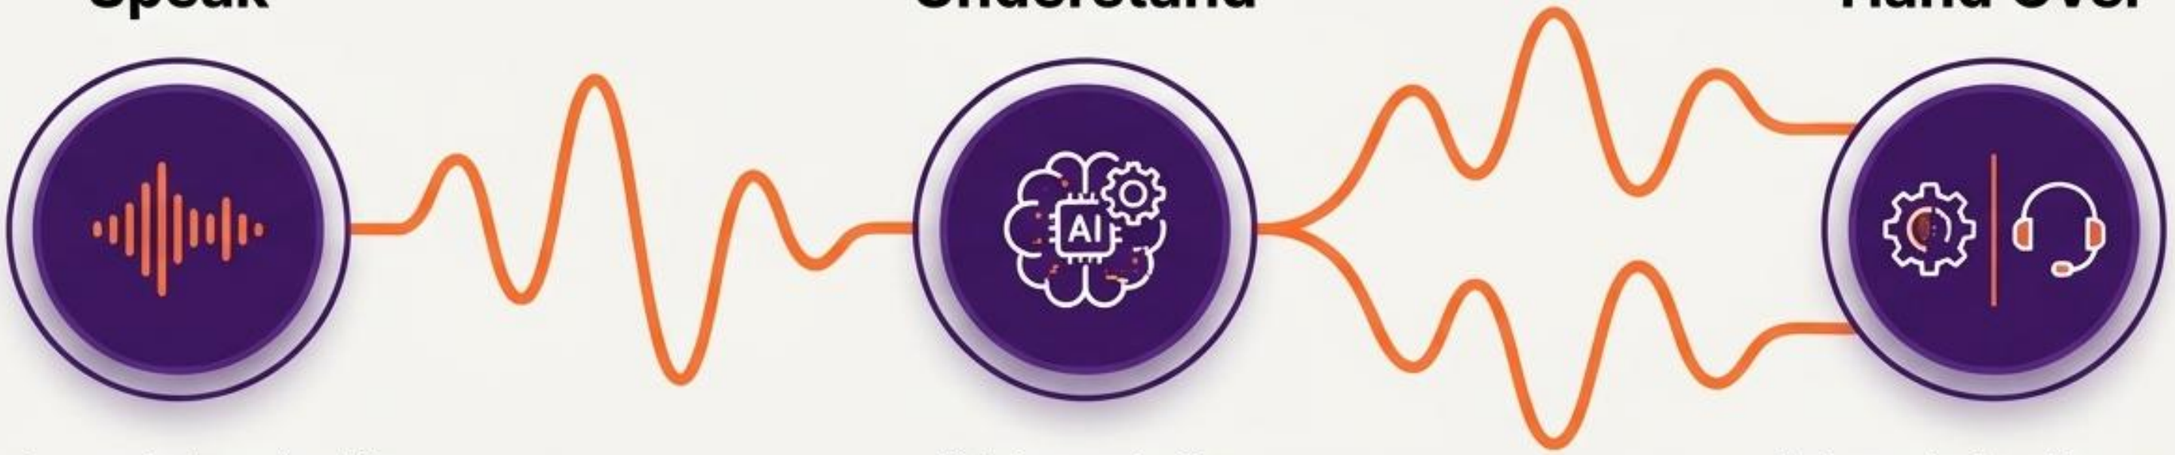

Four Connections. One Connected Utility.

Pelocal

Built for Bharat: The Vernacular Voice Engine.

Voice makes digital public services accessible to all.
Live at MSEDCL in Hindi, English, and Marathi.

A voice note in a familiar language — no portal, no long typed message

AI interprets the request and helps move it to action.

Automated action, or a call-centre agent picks up the conversation with context intact.

Pelocal

Closing the Loop on Every Report.

Request, action, and response — traceable from start to finish.

Pelocal

The Impact is Already Visible (MSEDCL).

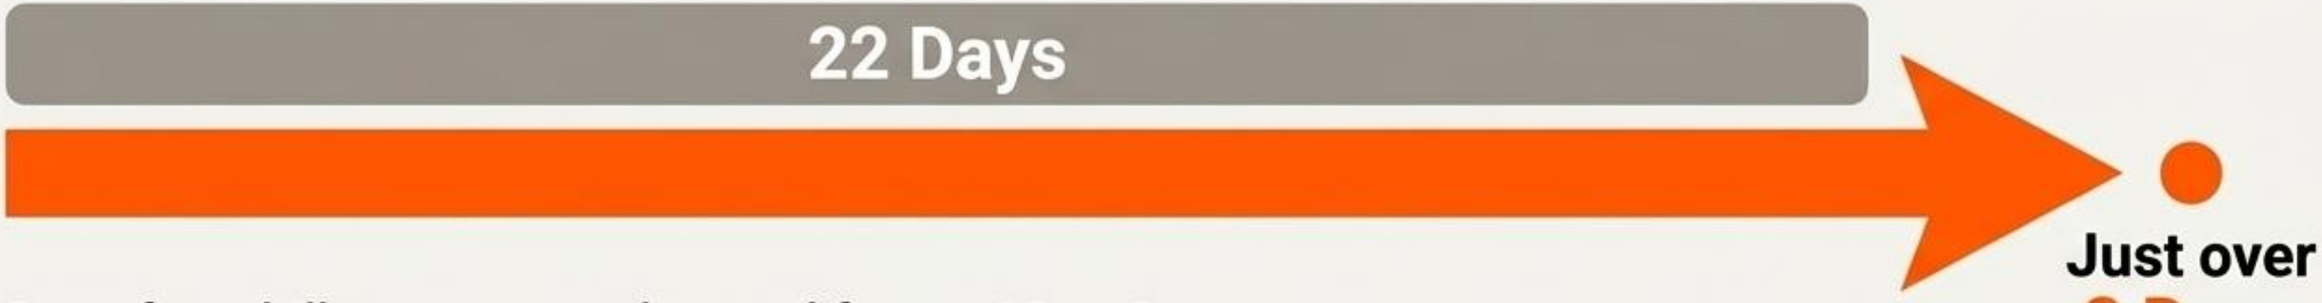

3.24 CRORE+
Consumers reached

30 CRORE+
WhatsApp messages delivered

₹157 CRORE+
Collected through WhatsApp

In full production since March 2026.

Acceleration Timeline

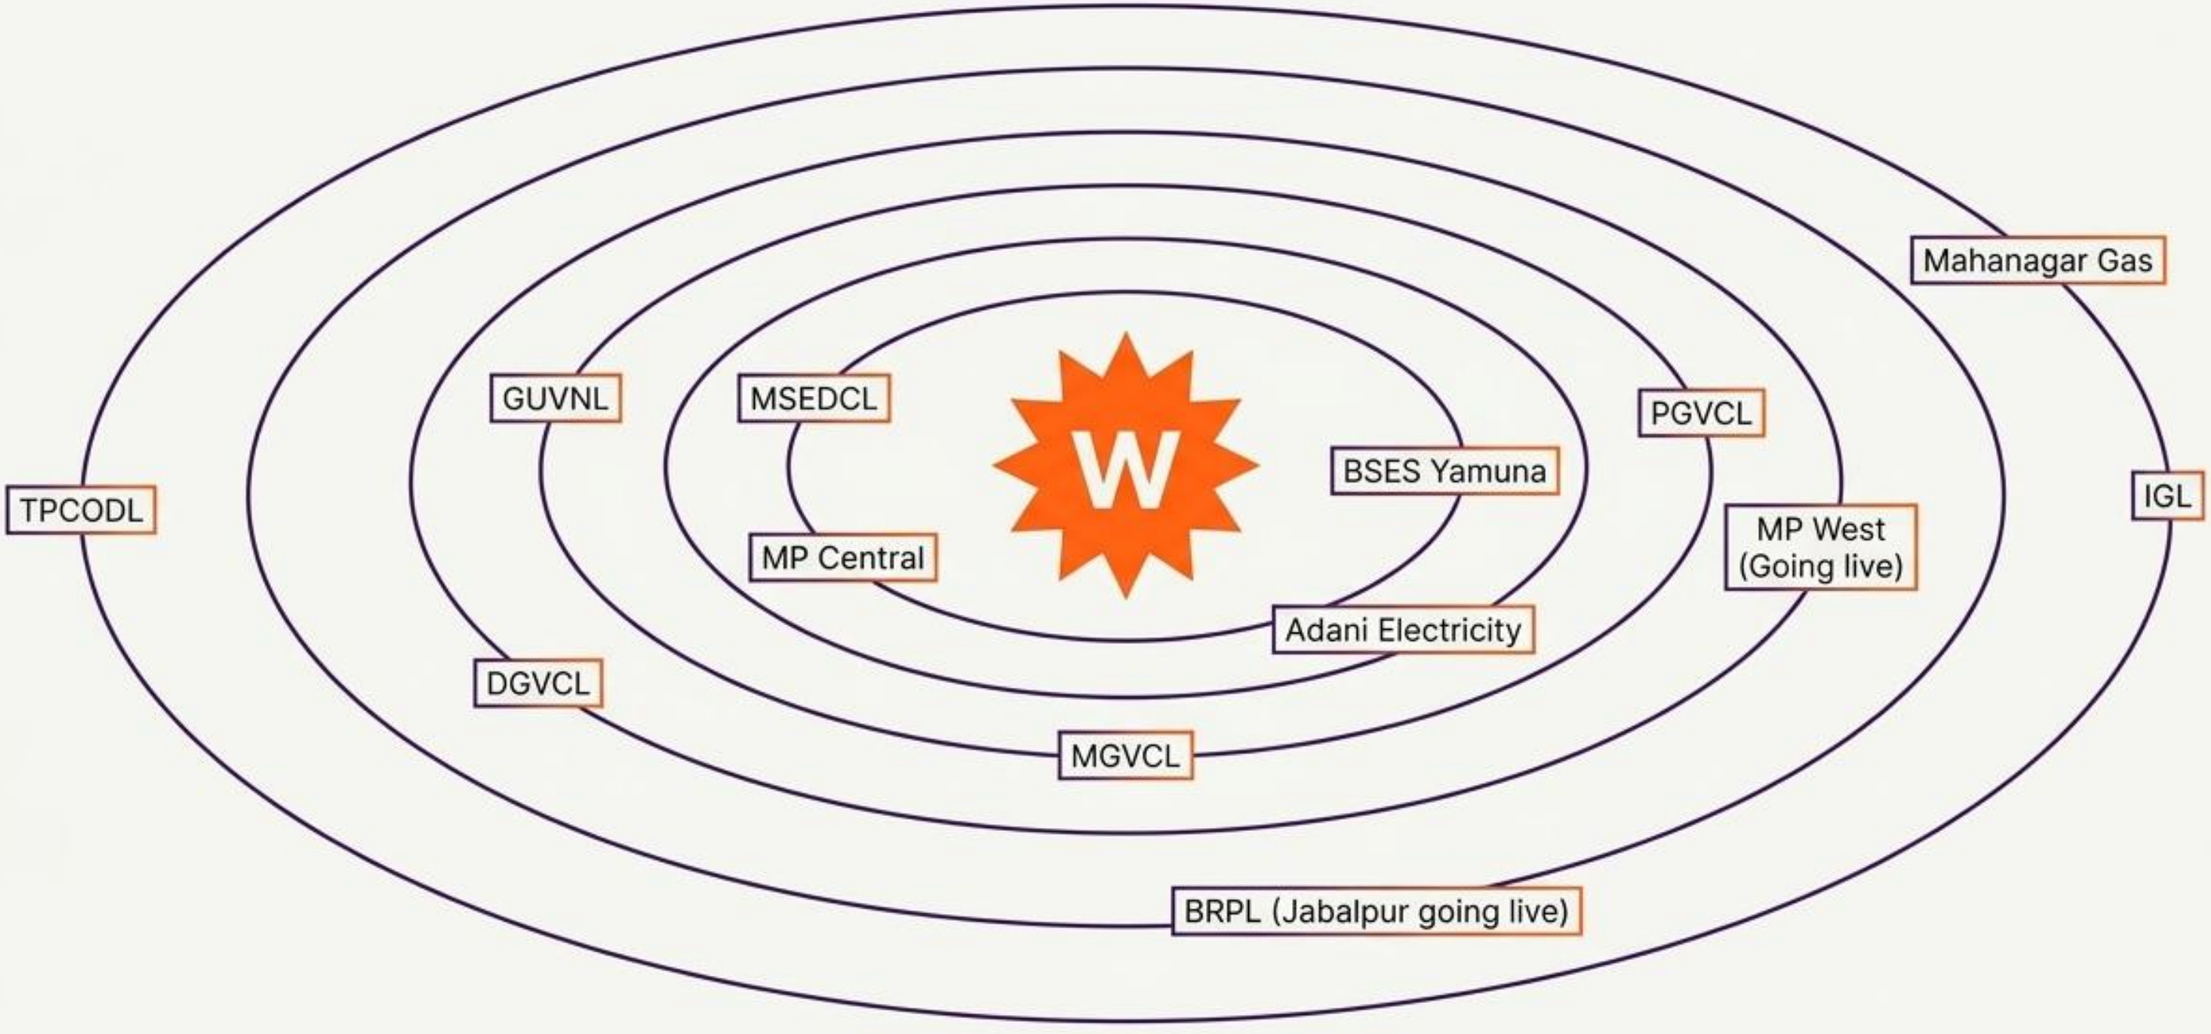

Days from bill to payment dropped from ~22 to 2.

9 in 10 of these payments are made after a DISCOM message is sent.
Better communication brings cash in sooner and strengthens working capital.

Pelocal

Trusted Across India’s Utilities.

Beyond power: metro ticketing in Delhi and Mumbai, municipal citizen services, and selected insurance/lending use c

Pelocal

Every Service Request, A Clear Path.

Utilities are investing in smart meters, modern billing, and digital infrastructure.
Now, connect them to the everyday experience of consumers and employees.

Pelocal

The Future DISCOM is Frictionless.

The future DISCOM will not be defined only by the systems it installs, but by how easily consumer and employee can get things done.

Routine consumer work should not require a visit to a DISCOM office. One conversation at a time in the consumer's language, connected to the systems and people who get the work done.
